

MIKON innstilling til budsjett 2020

Nr	Prosjektnavn	Institusjon, søker	Varighet	Budsjett KNOK
Administrasjon				
	Flaggskipsledelse (2 personer)	NINA, APN		300
	Ledergruppe (6 personer)	NPI, IMR, NILU, NOFIMA, NIBIO, NIKU		300
	Refereebehandling			100
	Bevilgning "Plast i Arktis"			330
	Vitenskapsplan og syntese av resultater			110
	Delsum administrasjon			1140
Deltema 1				
512019	Oil Spill Modelling in Ice Covered Ocean and Environmental Consequences (OSMICO)	MET	2019-2020	590 ‡
372019	Current and future vulnerability of Arctic-breeding seabirds to anthropogenic stressors (VulTrack)	NINA	2019-2021	820
432019	ESCE - Ecological Status of Coastal Ecosystems in Northern Norway	HI	2019-2021	870
422019	Impacts of oil on fish stocks under different climate regimes "FishO'Clim"	APN	2020-2021	Prioritet * 1
	Delsum deltema 1			2280
Deltema 2				
322019	Toxicity of salmon lice pesticides on a key North-Norwegian marine species, <i>Pandalus borealis</i>	APN	2019-2020	540
312019	INvestigating ANthropogenic noise INterference on marine mammal' vocalization in Northern Norway (INANIN)	APN	2020-2021	800 *
462019	Effects of parental exposure to petroleum on fertilization success and embryo development in Atlantic cod (PARENTox)	UiT	2020-2020	1000 *
542019	WhaleFeast - Ecological, commercial and social challenges of the recent extreme winter arrivals of whales in Northern Norway	UiT	2020-2022	Prioritet * 2
532019	Toward a sustainable fishery in the North: The impacts of seabird bycatch on the population dynamics of threatened seabirds	NINA	2020-2021	Prioritet * 3
	Delsum deltema 2			2340
Deltema 3				
362019	CurBES - Cumulative impacts of the linear infrastructure associated with industrial development on biodiversity and ecosystem services	UiT	2019-2021	930
332019	A Traditional Ecological Knowledge Database for Planning and Impact Assessments (TRACE)	NIKU	2019-2021	770
472019	Governing environmental and social aspects of salmon farming in four northern countries (FourSalmon)	NOFIMA	2019-2020	980
352019	ArcticStakes - Addressing the sustainability challenges of increased industrial growth by advancing stakeholder involvement in science	UiT	2020-2022	960 *
	Delsum deltema 3			3640
Formidling/overgripende prosjekter				
	AMINOR forskerskole		2020-2020	40 *
Totalt for MIKON				9440

* Nye prosjekter 2020

‡ Forutsetter revidert prosjektrapport for 2019
